

City Code Chatter (CCC) — Take care of pets during the winter

Written by Holyoke Enterprise

As the weather grows colder, remember to pay extra attention to the needs of pets.

Temperatures are falling which means water bowls can start freezing. Pets will need warmth at night and dry places to lay, out of the elements and wind. If one is not able to put a pet inside at night, add a heat lamp to their shelter to keep them warm and keep water bowls from freezing.

Those with questions, concerns or needing assistance, contact code enforcement officer Dawn Worley at 854-3232. Those interested in seeing a code discussed or explored in future CCC articles should contact the Enterprise office at 854-2811.
