Support group being formed

Parents who have experienced the death of a child are invited to join a support group. An organizational meeting is set for Wednesday, Sept. 26 at 7:30 p.m. at the office building at 143 S. Campbell in Holyoke.

The death of a child is life-altering. Only those who have experienced this loss can truly know the journey of the grieving parent. The purpose of this group is to bring together parents in all stages of this process to offer understanding and hope.
