

Work on water feature begins

Written by Holyoke Enterprise

Sawyer Waterscaping, a landscaping firm from Cheyenne, Wyo., arrived in Holyoke Saturday, Aug. 3 and began working on the new water feature south of Homesteaders Park Monday, Aug. 5. They expect to finish by Saturday, Aug. 10.

While much of Monday was spent excavating the land, crews worked Tuesday morning, Aug. 6 placing the larger rocks around the land, as pictured, and carving out the design of the water feature. —Enterprise photo
