

Lifeline program makes mobile phone service more affordable in Colo.

Written by Holyoke Enterprise

Everyone deserves to have affordable access to mobile phone service in order to stay safe and connected.

The Viaero Lifeline program assists qualifying eligible-income Colorado residents with a monthly discount on mobile phone service, to ensure cost is not keeping people from having a phone with them wherever they go.

Lifeline reduces the cost of wireless phone service by \$9.25 per month for individuals who qualify. Lifeline is a government assistance program, limited to one discounted service per household.
