

Championship rings received by 2010 HHS state champs

Written by Holyoke Enterprise

Members of the 2010 Class 2A state basketball champion Holyoke Dragon basketball team recently received their championship rings. Looking like a professional basketball or football ring, they display the player's name, number, school, season record and of course, the year the team brought home the gold. Those on the team were given the option to purchase their own ring.—Enterprise photo
