

## Appreciation shown for state b-ball coverage

Written by Holyoke Enterprise

---

Dear Editor:

Being able to listen to the state tournament basketball games on Star 92.3 was truly “the next best thing to being there!” Not being able to attend all rounds of the state tournament was disappointing; however, Star 92.3 made me feel like I was actually sitting in the stands.

We can hear the enthusiasm of the crowd, hear the band and are able to visualize the players on the court. John Thayer and Marcus Kammer do a wonderful job with their colorful commentary. Dustin Wieland keeps things going at the Holyoke station, and Gary Krumm brought us live interviews.

There are many people not living in our community that tune in to the coverage via the internet, keeping them connected to our hometown sports and events. We are very fortunate to have this local station that covers all of our sporting events! GO DRAGONS!
