

Spring has landed

Written by Holyoke Enterprise

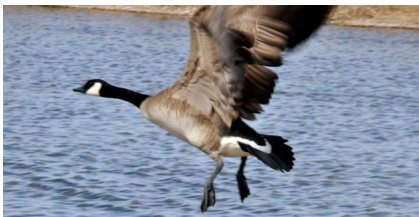

While the official start of spring is not until next Thursday, March 20, Holyoke has already been seeing wonderful signs of spring this month.

A couple weeks ago, Canada geese arrived in the area, with many gathering at the Holyoke Lions Club Fishing Pond east of town.

People of all ages have been soaking up the sun, with temps reaching 74 degrees on both Sunday and Monday, March 9-10.
